## Drone Law

Kevin Fanning and Doug Kelly, Clark Hill PLC

2:00-2:30 p.m.  
30 minutes

**Session Description:** This presentation involves the growing field of "Drone Law." It will provide legal insight, counseling and litigation avoidance strategies related to drain commissioner use of unmanned aircraft systems (UAS) or "drones." The presentation will provide review of the regulatory landscape and its application with applicable laws governing drain inspection and easement use.

## Construction Administration for Open Drains

Ronald B. Hansen, P.E. P.S., Spicer Group

2:30-3:00 p.m.  
30 minutes

**Session Description:** This is interactive session that reviews from start to finish the construction administration phase for an open drain project. The session includes a review and refresher of tasks for a Commissioner's or Commissioner representative consideration during construction. Topics such as construction permits, construction staking, construction inspection, material testing, soil erosion control, landowner agreements, progress payments, change orders, record keeping, reporting, restoration and other construction related tasks will be reviewed. Also, discussion on technology that could enhance data management in construction phase.

Building and Maintaining Quality Relationships with your Road Commission

Marya N. Colpaert, P.E., Deputy Commissioner/Engineer, Saginaw County Public Works Commission

Joe Wisniewski, P.E., Director of Engineering, Saginaw County Road Commission

Joe Bush, Ottawa County Water Resources Commissioner, Ottawa County Water Resources Commission

Brett Laughlin, Managing Director, Ottawa County Road Commission

3:45-4:15 p.m.

30 minutes

**Session Description:** This session will stress how important a good working relationship is between drain commissioners and road commissioners. Additionally, it will hit on specific items the counties on the panel do to keep the lines of communication open. The intent for this session is to provide a panel of people to promote open discussion on this topic.

Townships and Drain Commissioners: Working Together

Larry Merrill, Michigan Townships Association

4:15-5:00 p.m.

45 minutes

**Session Description:** Townships help pay for almost every drain project, and often initiate the process. As projects are more successful when townships and drain commissioners work together during a project, learn more about township budgets and governance to improve communication and relationships with your local township officials.
